<b>Comment From/Date</b>	<b>Reference</b>	<b>Comment</b>	<b>Response By</b>	<b>Response Code</b>	<b>Response:</b>
ACHP 8/12/09	Title	Add ACHP to the title block as a signatory to the agreement with FTA and SHPO, to the "now, therefore" clause that closes the preamble, and to the signature page.	SF	A	done
ACHP 8/12/09	Preamble	Identify the City and County of Honolulu as an invited signatory; identify all other signatories and invited signatories according to their role.	SF	A	done
ACHP 8/12/09	Preamble	Note how FTA has addressed its responsibilities under 800.10 of our regulations to notify and invite the Secretary of the Interior (represented by National Park Service region) to consult if FTA has made a finding of adverse effect for one or more National Historic Landmarks.	SF	A	done
ACHP 8/12/09	Stipulations	ACHP recommends clearly defining roles and responsibilities within the PA as the first stipulation. Stipulation VIII could be moved into such a stipulation.	SF	A	Done See Stipulation I
ACHP 8/12/09	Stipulations	Several stipulations would benefit from greater specificity about timeframes for completion, how scopes of work will be developed and reviewed, what party is assigned responsibility for the task, and/or what products will result. See especially Stipulations I, II, III, IV, V and VI.	SF	A	done
ACHP 8/12/09	Stipulations	Stipulations should specify, where appropriate, how and when consultation will take place in the preparation and review of work products.	SF	A	done
ACHP 8/12/09	Stipulations	FTA and the City should coordinate with the Hawaii SHPO in making historic property documentation information accessible to the public per Stipulation I, E.	SF	A	done
ACHP 8/12/09	Stipulations	What is the value or need addressed by preparing both National Register nominations and HABS/HAER/HALS documentation for certain properties (Stipulations I and V)?	SF	B	Consulting parties specifically requested both NRHP and HABS documentation.
ACHP 8/12/09	Stipulations	Will any elements of the raised guideways, stations, or support facilities go through a design review process to minimize their visual effect on historic properties? If so, how will consulting parties be offered to opportunity to review and comment on plans?	SF	A	Stipulation regarding established project design standards added; all consulting parties will have review at milestones as noted in current PA.
ACHP 8/12/09	Stipulations	The PA should include a detailed plan for handling post-review discoveries. The language in Stipulation VIII should provide a clear	SF	A	Note that stipulations numbering has changed since the comment

<b>Submittal/Document Title: Programmatic Agreement</b>

<b>Comment From/Date</b>	<b>Reference</b>	<b>Comment</b>	<b>Response By</b>	<b>Response Code</b>	<b>Response:</b>
		and detailed process for what will take place in the event of a discovery, when and how FTA and the SHPO will be notified, and timeframes for consulting on a treatment plan. What is the relationship of Stipulation X.G. to Stipulation VIII?			was made in August 2009. These numbers no longer apply.
ACHP 8/12/09	Stipulations	The Archaeological Inventory Survey Plan should be developed to the extent possible now and included as an attachment to the PA to provide a clear protocol for how phased identification, evaluation, effects assessment, and treatment planning will take place. Project phasing and how it relates to the schedule for archaeological work should be made clear in the PA.	LS	D	This was not included at the SHPD's initial direction. This comment has been superseded by later decisions.
ACHP 8/12/09	Stipulations	Stipulation IX should be expanded to include archaeological discoveries as well as unexpected effects to above-ground historic properties. ACHP recommends a detailed discovery provision that provides explicit information about the process of notification of a discovery, evaluation of a newly –discovered historic property, and consultation to develop a treatment plan. The process should include discrete timeframes.	SF	A	Done
ACHP 8/12/09	Stipulations	ACHP recommends the addition of stipulations referencing how FTA will handle any emergency situations that may occur during project construction, how objections raised by a member of the public would be addressed, and what measures the City will take to avoid damage to nearby historic properties in the course of project construction through a construction protection plan or similar plan of action.	SF	A	done
ACHP 8/12/09	Stipulations	Stipulation XI.D should specify a duration for the PA to be implemented.	SF	A	done
Hui Malama 10/06/09	Process	Programmatic Agreement should not be entered into until a full blown archaeological inventory survey (AIS) is conducted.	LS	D	PA is following the process established in 36 CFR 800.4(b)(2). The AIS will be completed prior to final design completion for each phase of the project.
Hui Malama 10/06/09	Process	Until the AIS is conducted and completed, no Record of Decision and no Final Environmental Impact Statement should be issued.	LS	D	See above

		Landmark through the Navy's own PA.			
NTHP 09/30/09	VIII Mitigation of Specific Resource s B)	Insert italics: The City shall <i>ensure that the plans are consistent with</i> the tenets... And, at the end <i>The City will submit plans for modifications of the bridge to SHPO for a 30-day review and comment period. In the event the SHPO does not concur that the plans are consistent with the Secretary's Standards, the City will modify the plans to bring them into consistency with the Standards.</i>	LS	A	Language added regarding Sec. of Interior Standards and SHPO review of all Preliminary Engineering project plans.
NTHP 09/30/09	VIII Mitigation of Specific Resource s E)	Add E: <i>The City shall provide site-specific mitigation for the loss of 2,000 square feet of open space currently used as a public courtyard directly adjacent to the Dillingham Transportation Building, including the designation of a comparable amount of public space nearby or adjacent to the existing courtyard.</i>	SF	D	The City is unable to fulfill this request.
NTHP 09/30/09	VIII Mitigation of Specific Resource s E)	Add F: <i>The City will establish a Monitoring Program for all historic properties within the APE. The intent of the Program will be to gather data to evaluate the effectiveness of the TOD Ordinance and other City land use regulations in preventing the loss of historic properties in the vicinity of the project as a result of the secondary and cumulative impacts of the project.</i> (1) <i>Each quarterly report submitted pursuant to Stipulation XIII, (C) (2) shall include documentation regarding permit applications for demolition of, or alterations to, any historic property within the APE. Each quarterly report will identify any permit applications that have been filed regarding historic properties within the APE, and any City actions in response to those permit applications. In the event that a total XX National Register-eligible resources are demolished or substantially altered in a manner consistent with the Secretary's Standards for the Treatment of Historic Properties, the City will establish a Moratorium for historic properties within the APE, pursuant to paragraph (F)(2).</i> (2) <i>The City will prepare draft legislation, in consultation with the consulting parties, providing for a temporary moratorium of one year on the demolition or substantial alternation of any historic properties</i>	SF	B	Revised text added; was discussed with CPs on 10-26-09 and modified.

		<p><i>within the APE. The moratorium will be for the purpose of studying ways to improve the effectiveness of the City land use laws and regulations in protecting historic properties. The City will submit draft legislation to the City Council and formally request that the City Council consider and enact the legislation. The City will coordinate with the consulting parties who support the legislation. In the event that the City Council does not pass the moratorium legislation, the City will reconvene the consulting parties to develop alternative measures for strengthening the effectiveness of the City's land use regulations to protect historic properties within the APE from secondary and cumulative effects of the project.</i></p> <p><i>(G) The City will prepare a Preservation Plan for historic properties and districts located within the APE. The Plans are intended to provide guidance for maintenance/repair and alterations for historic property owners to ensure that transit-oriented development is protective of historic resources in the project area. The Plans will provide both preferred maintenance and repair treatment strategies, and also specific material replacement guidelines per the Secretary of the Interior's Standards and LEED standards. The Plans will also provide specific recommendations and alternative material replacement options that will assist in meeting LEED certification goals as well as provide the framework for a proposed maintenance and inspection schedule. The City will circulate draft Plans to the consulting parties for a thirty day review and comment period. The City will take into account all timely comments received on the draft Plans prior to finalizing them. Final digital copies of the Plans will be provided to any concurring party upon request.</i></p>

NPS 09/23/09	Section V. A	Suggested changes: The City shall consult with NPS Regional HABS HAER HALS staff to determine which resources should be documented for HHH recordation. All required HHH archival black and white photography will be completed, submitted to NPS regional staff for approval and approval received by NPS regional staff prior to any pre-construction or construction activities to the resources. The City shall submit all requisite final draft copies by (INCLUDE deadline)	SF	A	done
HHF 09/16/09	Project Design Development	The FTA and the City shall consult with SHPO and the other consulting parties on the design of the project stations, guideway and other infrastructure design regarding effects on historic properties as part of the schematic and design development process. In areas where historic properties are present, all elements of the project design, including but not limited to, stations, platforms, shelters, ramps, walkways, tracks, poles, catenaries, public art, and associated streetscape improvements, will meet the Secretary of the Interior's Standards, taking into account the suggested approaches to new construction in historic areas in the Secretary of the Interior's Standards for the Rehabilitation of Historic Properties.	SF	C	Conceptual changes made reflecting the spirit of this request while adhering to the City's ability to fulfill the obligation.
HHF 09/16/09	Project Design Development	The City will develop the project design for these areas in close consultation with the Hawai'i SHPO and with other consulting parties and other local and state agencies. Consultation will occur throughout the design process so that historic values are integrated, incorporated and implemented into the project design. The City will submit plans to Hawai'i SHPO and other consulting parties for review and comment at minimum at the 35% and 65% completion stages. A set of 35-percent complete plans will be provided prior to the City submitting application to FTA to enter into final design. A set of 65-percent complete plans will be provided by _____. Hawai'i SHPO and other consulting parties will provide comments to the City within 30 days of receipt of plans or the City may presume that they have no comments.	LS	A	Comment was discussed and incorporated. Review at PE and FD stages.

<b>Submittal/Document Title: Programmatic Agreement</b>					
Response Code:		A - Agree and will comply	B - Will investigate and comment	C - Clarification needed	
<b>Comment From/Date</b>	<b>Reference</b>	<b>Comment</b>	<b>Response By</b>	<b>Response Code</b>	<b>Response:</b>
HHF 09/16/09	Project Design Development	The City will take into consideration any timely comments received in developing final designs for all project elements in historic areas. The City will submit final designs to Hawai'i SHPO for review and written concurrence regarding effects on historic properties and notify consulting parties of the availability of plans for review. Hawai'i SHPO will have thirty days to provide comments on final designs as submitted. In the event the City is unable to integrate the Hawai'i SHPO comments into final designs, the City shall provide a written explanation to Hawai'i SHPO and FTA within 30 days of receipt of Hawai'i SHPO's	SF	A	Wording has been modified as a result of subsequent consultation.
HHF 09/16/09	Project Design Development	If there is any portion of the project where it is not feasible to reach a design that meets the SOI Standards, the project improvements will be considered to have an adverse effect, and mitigation measures will be developed and implemented in accordance Stipulation _____ (regarding resolution of adverse effects) of this agreement.	SF	A	As shown in IV Design Standards, the City shall consider the Sec. of Interior Standards. Discussions with the CPs on 10/26/09 resulted in agreement to include meetings to discuss potential processes if standards are not met.
HHF 09/16/09	Resolution of Adverse Effects	In any instance where the final design of the project components do not meet the SOI Standards, or if, in consultation with the Hawai'i SHPO, FTA and the City determine it is not practicable to avoid other adverse effects, the City will consult with Hawai'i SHPO and other consulting parties to develop a mitigation plan appropriate to the historic property.	SF	A	As shown in IV Design Standards, the City shall consider the Sec. of Interior Standards. Discussions with the CPs on 10/26/09 resulted in agreement to include meetings to discuss potential processes if standards are not met.
HHF 09/16/09	Resolution of Adverse Effects	The City shall notify consulting parties to this agreement when a mitigation plan will be prepared pursuant to this stipulation. The mitigation plan shall be developed within 60 calendar days of such notification. If more time is required to develop the mitigation plan, the City will notify consulting parties to this agreement regarding the reason for the delay and the anticipated timeframe for mitigation plan distribution. The City will provide a copy of the draft mitigation plan to consulting parties for 30 day comment period, during which consulting parties may provide written comments to the City.			See above
HHF 09/16/09	Resolution of	The City will take into account any timely comments of consulting parties in the development of final mitigation plans. A mitigation plan			See above

	Adverse Effects	will be final upon acceptance by FTA and Hawai'i SHPO. Consulting parties will receive copies of all final mitigation plans and may also be invited to concur in mitigation plans.			
HHF 09/16/09	Protection Measures	Before project construction begins, the City shall develop a construction protection plan in consultation with FTA, Hawai'i SHPO, and other consulting parties as appropriate detailing all measures to protect historic properties from physical damage during construction of the project. Identified protection measures shall be clearly identified in construction documents. The City will include the construction protection plan within specific contract packages to inform contractors of their responsibilities relative to historic properties. Copies of the construction protection plan will also be provided to the consulting parties of this agreement. The construction protection plan will consist of the following: Inspection and documentation of existing conditions at the historic properties adjacent to project construction activities; Establishment of protection measures and procedures; and Any documentation and protection measures contained within the vibration monitoring plan developed pursuant to Stipulation ____.	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not limited to historic.
HHF 09/16/09	Protection Measures	Before project construction begins, the City shall meet with the construction contractor(s) to review the construction protection plan and ensure that construction plans are consistent with the project design as reviewed by Hawai'i SHPO.	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not limited to historic.
HHF 09/16/09	Protection Measures	The City will monitor project construction to ensure that the measures in the construction protection plan are implemented and shall provide a record of monitoring activities in the quarterly reports prepared pursuant to Stipulation ____.	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not limited to historic.
HHF 09/16/09	Noise and Vibration Assessment and Mitigation	The City will develop and implement a historic properties Vibration and Noise Management and Remediation Plan (VNMRP) to address issues related to vibrations and noise caused during project construction and operations. The VNMRP will be developed in consultation with parties to this agreement. i. <u>Pre-construction survey</u> : The VNMRP will develop a schedule and methodology for a pre-construction survey of all historic properties	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not limited to historic.

<b>Submittal/Document Title: Programmatic Agreement</b>

<b>Comment From/Date</b>	<b>Reference</b>	<b>Comment</b>	<b>Response By</b>	<b>Response Code</b>	<b>Response:</b>
		determined to be adversely effected by the project. This survey will provide a baseline of existing structural conditions to facilitate later identification of any structural and/or cosmetic damage caused by the project construction. A post-construction survey of all properties will identify any changes from pre-construction condition and assess possible cause of these changes. i. <u>Vibration from project construction</u> : The VNMRP will outline a methodology for monitoring vibration during project construction at adversely effected historic properties. It will specify thresholds for vibration during construction and will include details about the process, equipment, documentation standards, and frequency of monitoring. Thresholds will be set using guidance from FTA on standard vibration thresholds.			
HHF 09/16/09	Noise and Vibration Assessment and Mitigation	The VNMRP will include provision for timely reporting of the results of the pre-construction survey and construction monitoring efforts to the Hawai'i SHPO and the owners of the adversely effected historic properties. It will also include a process to notify the City of any observed vibration or noise effects on the properties, and if problems are identified, identify specific provisions to address those problems, including, but not limited to, cessation of construction activity, repair of damage, and other appropriate measures.	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not limited to historic.
HHF 09/16/09	Noise and Vibration Assessment and Mitigation	All owners of the adversely effected historic properties will be consulted regarding the provisions of the VNMRP. This consultation will provide information on the purpose of, and process for, completing the pre-construction survey and other work under the plan, and the process for substantiating damages and for seeking remediation for substantiated damage claims should damage result from construction or operation of the project. Any agreements with owners of historic properties that contain provisions related to vibration or noise issues will be consistent with the provisions of the VNMRP. Copies of such agreements will be made a part of the VNMRP and/or forwarded to the Hawai'i SHPO.	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not limited to historic.
HHF 09/16/09	Noise and Vibration Assessment	The team preparing the VNMRP will include a historian or architectural historian meeting the Secretary of the Interior's Professional Qualification Standards.	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not

	nt and Mitigation				limited to historic.
HHF 09/16/09	Noise and Vibration Assessment and Mitigation	The VNMRP will be developed by the City in consultation with the Hawai'i SHPO and the draft plan will be submitted to the Hawai'i SHPO and consulting parties for a 30-day review and comment period. The City shall consider all comments received in a timely fashion prior to issuing a final report. FTA will approve the final VNMRP. The final plan will be submitted to Hawai'i SHPO for concurrence regarding effects on historic properties by _____.	LS	E	Per answer from FTA this will be included in the Record of Decision for all resources and not limited to historic.
HHF 09/16/09	Public Education	In consultation with Hawai'i SHPO and other consulting parties, the City and County will develop and implement an educational effort to encourage the rehabilitation of historic properties located along the transit route. This effort will include an information packet with information about proper rehabilitation practices and financial resources as well as the benefits of pursuing National Register listing for eligible properties. It will also include individual consultations with owners of historic properties and/or public workshops, as appropriate. At the conclusion of the consultations and workshops, the City and County will submit a report on the effort to the Hawai'i SHPO and other consulting parties.	SF	A	Minor word changes made as the result of subsequent consultation.
HHF 09/16/09	Public Education	The City and County will develop an educational Field Guide of the historic properties (including historic districts) along the transit route. The Field Guide will be developed in consultation with Hawai'i SHPO and other consulting parties, and the final draft will be submitted to Hawai'i SHPO for review and concurrence. The City will make the Field Guide available to the public in both print and electronic formats. The Field Guide will be completed and available before revenue service operations begin.	SF	A	Minor word changes made as the result of subsequent consultation.
HHF 09/16/09	Public Education	The City will develop a scope of work for the public education tasks in A and B above in consultation with the Hawai'i SHPO prior to the initiation of construction activities. The scope of work will include an outline of the specific tasks to be carried out and products to be delivered as part of the public education effort, a timeline for the completion of all tasks in relationship to the project development	SF	A	Minor wording and organizational changes made as the result of subsequent consultation.

<b>Submittal/Document Title: Programmatic Agreement</b>

		schedule, and a distribution plan.			
HHF 09/16/09	Public Education	All public education efforts, in this Stipulation will be completed before the revenue service operations begin.	SF	A	Done
HHF 09/16/09	Public Education	All public education efforts, in this Stipulation will be completed before the revenue service operations begin.	SF	A	Done
HHF 09/16/09	National Register Nominations	The City shall prepare National Register Nomination forms, in conformance with the guidelines of the National Park Service and Hawai'i SHPO, for all thirty-three adversely effected properties located along the project corridor.	SF	A	Minor word changes made as the result of subsequent consultation. (Two resources of the thirty-three are NHLs and are addressed separately.)
HHF 09/16/09	National Register Nominations	Nominations for properties already listed on the Hawai'i and/or National Registers will be updated and submitted to Hawai'i SHPO for review and concurrence.	SF	A	Minor word changes made as the result of subsequent consultation.
HHF 09/16/09	National Register Nominations	The nomination forms will be completed in consultation with the Hawai'i SHPO, and will be submitted to Hawai'i SHPO for review and concurrence. The City will complete the nomination forms before the project begins revenue service operations.	SF	A	Done
HHF 09/16/09	National Register Nominations	Actual nomination of these properties to the National Register of Historic Places will be at the discretion of the Hawai'i SHPO and will follow the established procedures of the National Park Service (36 CFR 60.6(g)).	SF	A	Minor word changes made as the result of subsequent consultation.
HHF 09/16/09	National Register Nominations	Listing of historic properties on the National Register would enable owners and developers of these properties to access certain financial incentives for preservation, including the federal preservation tax incentives. The City will encourage historic rehabilitation of the properties as part of the development of station areas and the project as a whole through the educational effort in Stipulation ____ (Public Education).	SF	A	Spirit of this comment incorporated in public education and outreach efforts.

09/16/09	Report on Agreement Implementation	comments to FTA with thirty days of receipt of the report.			
HHF 09/16/09	Quarterly Report on Agreement Implementation	The City shall notify consulting parties and the public regarding the publication of the quarterly reports and make those reports available for their inspection and review on the project website. The City shall share any comments received from consulting parties and the public with signatories.	SF	E	Reports will be available on the Project website.
HHF 09/16/09	Quarterly Report on Agreement Implementation	At its own discretion or at the request of any signatory to this agreement, the City shall convene a meeting to facilitate review and comment on the reports, and to resolve any questions about its content and/or to resolve objections.			City to hold annual meetings
NPS 10/20/09	Page 3 Whereas Clause	Whereas Clause regarding direct and indirect effects) - This clause should be deleted from the PA since direct and indirect effect are NEPA, not NHPA regulatory nomenclature and because the terms are not being accurately used here. Even in NEPA terms, the 33 adverse effects are direct effects. Here is an excerpt from the regs:  Title 40: Protection of Environment PART 1508-TERMINOLOGY AND INDEX § 1508.8 Effects. Effects include: (a) Direct effects, which are caused by the action and occur at the same time and place. (b) Indirect effects, which are caused by the action and are later in time or farther removed in distance, but are still reasonably foreseeable.	SF	D	Stipulation not deleted. Language from Section 106 added.

<b>Submittal/Document Title: Programmatic Agreement</b>					
Response Code:		A - Agree and will comply	B - Will investigate and comment	C - Clarification needed	
<b>Comment From/Date</b>	<b>Reference</b>	<b>Comment</b>	<b>Response By</b>	<b>Response Code</b>	<b>Response:</b>
		Indirect effects may include growth inducing effects and other effects related to induced changes in the pattern of land use, population density or growth rate, and related effects on air and water and other natural systems, including ecosystems.			
NPS 10/20/09	Page 5 Section I	Please add the following as Stipulation I.G. "NPS Responsibilities - Accept for those documents set forth in stipulations V.C and VI.B of this agreement, NPS may at its sole discretion review and respond to any of the other documents, if NPS chooses to respond it will do so in a timely manner. Lack of response should not be taken to indicate an opinion by the NPS	SF	D	Only City and signatories' roles will be defined within the PA.
NPS 10/20/09	Page 5 Section II. B	line 4 - suggest replacing "acceptable mitigation" with "avoidance, minimization and mitigation measures."			Acceptable mitigation changed to treatment measures
NPS 10/20/09	Page 5 Section II.B	line 7-8 - The statement that "The City shall complete all related mitigation prior to undertaking each construction phase that would adversely affect a TCP" still does not address the issue of foreclosing opportunities for avoidance and minimization.			Language changed to commit to completing process.
NPS 10/20/09	Page 7 Section III.B.1	This section states, "Within 60 days of execution of this PA, the City shall consult with the OIBC, lineal and cultural descendents, and other interested parties that are identified in discussion with OIBC, about the scope of investigation for the AIS Plan for construction of Phase 4." Why only phase 4; is that the only area where there may be burials? Wouldn't it be prudent to complete the AIS and know where burials are located ASAP? If it is only to be completed prior to beginning final design for phase 4, there may be little opportunity for avoidance.			This was worked out within working group. Phase 4 is area of greatest concern. Prior to final design is ASAP.
NPS 10/20/09	Page 7 Section III. B. 2	This section states, "The City shall complete the AIS for Phase 4 (Middle Street to Ala Moana Center) prior to beginning Final Design for that area. Won't there already be construction ongoing at this point; shouldn't this come before start of construction?"			No construction within that or prior phase of project.
NPS	Page 7	This section states, "The City, in coordination with the OIBC, lineal and			Agreement suggests a treatment

10/20/09	Section III. B. 3	cultural descendents, and other interested parties that are identified in discussion with OIBC shall complete a draft approach for consultation regarding treatment of . . . The approach shall address at minimum a process for communication of any discoveries, definitions that will be applied to the Project, " Should this be an agreement, not quite certain what an "approach" would include. Can't some of this be spelled out here in the PA? At minimum, shouldn't it also include a time frame for notification?			plan, which cannot be completed prior to identification of a specific affected resource.
NPS 10/20/09	Page 7 Section III.B.5	Do the particulars of the consultation with the signatories need to be outlined in this clause?	LS	E	No
NPS 10/20/09	Page 7 Section III.C	Lines 1-5 - The first 2 sentences read, "The City shall conduct archaeological fieldwork as presented in the AIS Plan. For each construction phase, the archaeological fieldwork shall be completed in advance of the completion of final design so that the presence of any sensitive archaeological sites/burials discovered during fieldwork can be addressed during final design.  We suggest rewriting the second sentence to read: "For each construction phase, the archaeological fieldwork shall be completed in advance of the completion of final design so that so that the final design may incorporate avoidance and minimization measures for any sensitive archaeological sites/burials discovered during fieldwork can be addressed during final design."	LS	E	This approach may lead to the disturbance of additional resources that would not be disturbed if design progresses with the investigation.
NPS 10/20/09	Page 8 Section 111.C.4	This clause reference archeological method. Is there an archeological standard that should be referenced? When is this AIS plan II.C be completed? The AIS mentioned in II.B. 2. references completion prior to final design of phase 4	LS	E	No, SHPD has authority to approve method
NPS 10/20/09	Page 8 Section 111.E	Do additional parties need to review the mitigation plans. As written, only SHPO is reviewing the plans.			Correct

<b>Submittal/Document Title: Programmatic Agreement</b>					
Response Code:		A - Agree and will comply	B - Will investigate and comment	C - Clarification needed	
<b>Comment From/Date</b>	<b>Reference</b>	<b>Comment</b>	<b>Response By</b>	<b>Response Code</b>	<b>Response:</b>
NPS 10/20/09	Page 8 Section 111.E.2	Paragraph 2; line 1 - What is the limited distance - a couple of feet, 10-20 feet? Please specify.	LS	E	To be determined through consultation
NPS 10/20/09	Page 9 Section III.E.2.a	We thought data recovery was not allowable as mitigation. This is a question for ACHP.			Data recovery would be appropriate in some instances.
NPS 10/20/09	Page 10 Section IV.A	The design guidelines should also apply if station is adjacent to a NR eligible or listed property or district.	SF	A	done
NPS 10/20/09	Page 10 Section V.A	Shouldn't the context studies take the form of Multiple Property Documentation Forms? I believe that I asked this question before. If done as an MPD the form would go to the NR and provide the context for subsequent nominations.	SF	D	The context studies will be stand-alone documents.
NPS 10/20/09	Page 10 Section V.A.4	It isn't clear why the draft context studies are only going to SHPO and why interpretive signage is included in this stipulation. Also, if copies are not provided to other parties, how will they know to comment and send comments for the city's consideration?	SF	A	Studies will be provided to consulting parties. Interpretive language removed.
NPS 10/20/09	Page 11 Section V.B.3	Since CLR's are treatment documents, wouldn't the CLR's be completed prior to completion of design? Otherwise the document is not informing decisions. As proposed, only the photography and field work will be complete prior to construction. This doesn't make sense. If they are not done before design, then why do them?	SF	E	The landscapes that will be subject to CLR documentation have not been selected. (Consulting parties requested that previously suggested landscapes be removed from the PA.) The landscapes may not be within the APE and therefore they may not be impacted by the project. As the consulting parties discussed, the CLR's were intended to be programmatic in their future use. The information will be available for the City and others to use in future decision-making, management, and preservation

<b>Comment From/Date</b>	<b>Reference</b>	<b>Comment</b>	<b>Response By</b>	<b>Response Code</b>	<b>Response:</b>
10/20/09	Section X.E.	We believe it is very important that a plan for protecting/preventing damage to historic resources should be required in the RFP.			
NPS 10/20/09	Page 20 Section XI.A	The second sentence reads, "The City will begin the consultation process with the signatories and resolve any adverse effects in accordance with Section 106 of the National Historic Preservation Act within a period of 3 days." The language in the next sentence suggests that resolution is defined as amending the PA. 3 days is not enough time for resolution. If the 3 days only refers to start of consultation then the sentence should be revised; otherwise more time should be allotted for resolution.	SF	A	done
NPS 10/20/09	Page 20 Section XI.C	Should this section reference NAGPRA for any burials discovered on Federal land?	SF	A	done
NPS 10/20/09	Page 22 Section XIII.B.2	The first sentence reads, "Within 90 days of the execution of this PA, the City shall develop a schedule for the implementation of the provisions of the agreement." There are some instances in the PA where commencement of a study or inventory will begin within 30 days (60 days before the schedule is produced). Where there is a known commencement date, even if it is relative to signing of the PA, there should be a matrix of some sort for review and discussion. This matrix would begin to illustrate the number of documents, plans or reports that consulting parties may be requested to review at the same time and may indicate a need to adjust review times. This follows our earlier request for a schedule or table.	SF	E	The schedule will be produced as indicated in the PA. The PA contains items specifically scheduled at the request of consulting parties. The City agrees that it is aggressive, but has yielded to the consulting parties wishes.
NPS 10/20/09	Page 24	the NPS signature line currently reads:  Regional Administrator National Park Service  Please revise to read: Pacific West Regional Director National Park Service	SF	A	done

ACHP, 10/29/09, PA markups	Page 6, Sec III.A.3	Edit – delete “preservation or relocation” and replace with “the treatment”			Done
ACHP, 10/29/09, PA markups	Page 6, Section III.B	If the interest of the OIBC is limited to phase 4, then the PA should specify and explain why. Otherwise, move to Stipulation III.A.2 and ensure that OIBC has a similar opportunity as SHPD to review the overall AIS plan.			OIBC interest is greatest in, but not limited to, Phase 4. Several provisions are limited to Phase 4 because it is the area of highest concern.
ACHP, 10/29/09, PA markups	Page 7, Sec III.B.2	Edit – delete last sentence			Done
ACHP, 10/29/09, PA markups	Page 7, Sec III.B.3	Edit – add as first sentence: “The City shall inform OIBC of the status of the AIS.”			Done
ACHP, 10/29/09, PA markups	Page 7, Section III.B.3	Regarding “...duration of the construction period of the Project.” This is inconsistent with the rest of this stipulation as the duration of the entire construction period is more extensive than just phase 4.			Elements 1 and 2 are Phase 4 specific, the remainder of the Stipulation applies to entire Project.
ACHP, 10/29/09, PA markups	Page 7, Sec III.B.4	Edit to read: “... OIBC shall complete a draft protocol for consultation...The protocol shall address at minimum, a process for communication about any discoveries...”			Done
ACHP, 10/29/09, PA markups	Page 8, Sec III.C.4	Edit to read: “A description of archaeological methods specific and applicable to the findings will be used in analysis, and”			Done
ACHP, 10/29/09, PA markups	Page 8, Sec III.C.5	Edit to read: “Draft and final reports summarizing the results of the fieldwork and analysis that shall be submitted to the SHPD for review and concurrence.”			Term review and approval used to match state law.
ACHP, 10/29/09,	Page 8, Sec III.D	Edit to read: “...specific treatment plan to avoid, minimize, or mitigate adverse effects to historic properties pursuant to the applicable...”			Done

ACHP, 10/29/09, PA markups	Page 23	E becomes F, F becomes G, etc.	SF	A	Edits incorporated
ACHP, 10/29/09 letter		FTA and the City should reexamine Stipulation IX.C to provide additional detail about how information about the pattern of historic property demolition within the corridor will be used. At present, this stipulation creates a reporting requirement lacking a clear purpose. Other consulting parties have provided suggestions for using the results of demolition reporting.	SF	A	Stipulation language included based on input from consulting parties and based on specific comments from HHF and NTHP.
ACHP, 10/29/09 letter		FTA and the City should respond to comments and concerns raised by consulting parties about how the archaeological and burial location information was taken into consideration, among other factors, in the alternatives analysis for this undertaking. Clarification about how FTA considered possible effects to historic properties in evaluating alternatives that meet the projects purpose and need should be provided in the context of the Section 106 review.	LS	A	Alternative analysis materials were provided to all parties that have been in consultation.
ACHP, 10/29/09 letter		The opportunity to consult about design review, the development of interpretive and educational materials, and documentation products should be offered to all consulting parties regardless of their willingness to concur with the PA. We are unable to endorse a PA that would limit access by consulting parties to project planning measures included in the PA.	SF	A	Included based on prior comment from NTHP
ACHP, 10/29/09 letter		Section 106 consultation must be complete before FTA may authorize the letting of contracts or the release of funds for this undertaking. The formation of any binding commitments related to implementation of the project prior to the conclusion of consultation may compromise our ability to endorse a PA as well as compromise your ability to complete the Section 106 process. We will look to FTA to affirm that no such actions have taken place before we consider execution of a PA.	LS	A	The PA will be executed prior to the approval of the expenditure of any Federal funds [except for planning and design activities] on the undertaking or prior to the issuance of any license.
SHPD	Page 1	Design review – what if cannot comply with secretary’s standards?	SF	A	Based on input from consulting parties, procedure established to meet and review issues.
