---

Acronyms and Abbreviations	xxi
Executive Summary	S-1
<hr/>	
Chapter 01 Background, Purpose and Need	1-1
<hr/>	
1.1 History of the Honolulu High-Capacity Transit Corridor Project	1-1
1.1.1 Conditions Leading to the Project	1-1
1.1.2 Progress of the Honolulu High-Capacity Transit Corridor Project	1-4
1.1.3 Developments since the Draft Environmental Impact Statement	1-5
1.2 Description of the Corridor	1-5
1.3 Existing Travel Patterns in the Corridor	1-12
1.3.1 Person-trip Patterns	1-12
1.3.2 Transit Travel Patterns	1-13
1.4 Existing Transportation Facilities and Services in the Corridor	1-15
1.4.1 Street and Highway System	1-15
1.4.2 Public Transit System	1-16
1.4.3 Parking	1-16
1.4.4 Pedestrian and Bicycle Systems	1-16
1.5 Performance of the Existing Transportation System	1-16
1.5.1 Highway Traffic Volumes	1-16
1.5.2 Highway Traffic Operating Conditions	1-17
1.5.3 Transit Operating Conditions	1-17

---

1.6	Potential Transit Markets	1-20
1.7	Purpose of the Project	1-21
1.8	Need for Transit Improvements	1-21
1.8.1	Improve Corridor Mobility	1-21
1.8.2	Improve Corridor Travel Reliability	1-22
1.8.3	Improve Access to Planned Development to Support City Policy to Develop a Second Urban Center	1-22
1.8.4	Improve Transportation Equity	1-22
1.9	Goals of the Project	1-23

## Chapter 02 Alternatives Considered 2-1

---

2.1	Changes to this Chapter since the Draft Environmental Impact Statement	2-2
2.2	Alternatives Screening and Selection Process	2-2
2.2.1	Screening of a Broad Range of Alternatives	2-4
2.2.2	Alternatives Considered in the Alternatives Analysis	2-6
2.2.3	Alternatives Consideration Process after the Alternatives Analysis	2-13
2.3	Alternatives Considered in the Draft Environmental Impact Statement	2-15
2.3.1	No Build Alternative	2-15
2.3.2	Salt Lake Alternative	2-16
2.3.4	Airport Alternative	2-18
2.3.5	Airport & Salt Lake Alternative	2-18
2.4	Preferred Alternative Identification Process	2-18
2.5	The Project: Fixed Guideway Alternative from East Kapolei to Ala Moana Center via the Airport	2-21
2.5.1	Operating Parameters	2-27
2.5.2	Transit Technology	2-28
2.5.3	Station Characteristics	2-29
2.5.4	Safety and Security Measures	2-29
2.5.5	Pedestrian and Bicycle Access	2-41
2.5.6	Bus System	2-41
2.5.7	Park-and-Ride Facilities	2-41
2.5.8	Vehicle Maintenance and Storage Facility	2-42
2.5.9	Traction Power Substations	2-42
2.5.10	Project Phasing	2-43

---

Chapter 03 Transportation 3-1

---

3.1	Changes to this Chapter since the Draft Environmental Impact Statement	3-2
3.2	Methodology	3-2
3.2.1	Analytical Tools and Data Sources	3-4
3.2.2	Approach to Estimating Transportation Effects	3-5
3.3	Existing Conditions and Performance	3-6
3.3.1	Existing Travel Patterns	3-7
3.3.2	Existing Transit Conditions and Performance	3-9
3.3.3	Existing Streets and Highways Conditions and Performance	3-16
3.3.4	Existing Parking Conditions and Performance	3-23
3.3.5	Existing Bicycle and Pedestrian Network Conditions and Performance	3-23
3.4	Transportation Consequences and Mitigation	3-24
3.4.1	Future Travel Patterns	3-25
3.4.2	Effects on Transit	3-28
3.4.3	Effects on Streets and Highways	3-45
3.4.4	Effects on Parking	3-51
3.4.5	Effects on Bicycle and Pedestrian Facilities	3-55
3.4.6	Mitigation of Long-term Transportation Effects	3-56
3.5	Construction-related Effects on Transportation	3-58
3.5.1	Construction Staging Plans	3-58
3.5.2	Construction-related Effects on Transit Service	3-58
3.5.3	Construction-related Effects on Traffic	3-59
3.5.4	Construction-related Effects on Parking	3-61
3.5.5	Construction-related Effects on Bicycle and Pedestrian Facilities	3-62
3.5.6	Mitigation of Construction-related Effects	3-62
3.6	Indirect and Cumulative Transportation System Effects	3-65
3.6.1	Indirect Effects	3-65
3.6.2	Cumulative Effects	3-66

---

Chapter 04 Environmental Analysis, Consequences and Mitigation 4-1

---

4.1	Changes to this Chapter since the Draft Environmental Impact Statement	4-3
4.2	Land Use	4-10
4.2.1	Background and Methodology	4-10
4.2.2	Affected Environment	4-11
4.2.3	Environmental Consequences and Mitigation	4-21
4.3	Economic Activity	4-22
4.3.1	Background and Methodology	4-22
4.3.2	Affected Environment	4-23
4.3.3	Environmental Consequences and Mitigation	4-23

---

4.4	Acquisitions, Displacements, and Relocations	4-24
4.4.1	Background and Methodology	4-24
4.4.2	Affected Environment	4-25
4.4.3	Environmental Consequences and Mitigation	4-25
4.5	Community Services and Facilities	4-26
4.5.1	Background and Methodology	4-26
4.5.2	Affected Environment	4-27
4.5.3	Environmental Consequences and Mitigation	4-35
4.6	Neighborhoods	4-39
4.6.1	Background and Methodology	4-39
4.6.2	Affected Environment	4-39
4.6.3	Environmental Consequences and Mitigation	4-42
4.7	Environmental Justice	4-46
4.7.1	Background and Methodology	4-46
4.7.2	Affected Environment	4-48
4.7.3	Environmental Consequences	4-52
4.7.4	Environmental Justice Determination	4-55
4.8	Visual and Aesthetic Conditions	4-59
4.8.1	Background and Methodology	4-59
4.8.2	Affected Environment	4-61
4.8.3	Environmental Consequences and Mitigation	4-65
4.9	Air Quality	4-109
4.9.1	Background and Methodology	4-109
4.9.2	Affected Environment	4-110
4.9.3	Environmental Consequences and Mitigation	4-110
4.10	Noise and Vibration	4-111
4.10.1	Background and Methodology	4-112
4.10.2	Affected Environment	4-115
4.10.3	Environmental Consequences and Mitigation	4-115
4.11	Energy and Electric and Magnetic Fields	4-121
4.11.1	Background and Methodology	4-122
4.11.2	Affected Environment	4-122
4.11.3	Environmental Consequences and Mitigation	4-123
4.12	Hazardous Waste and Materials	4-124
4.12.1	Background and Methodology	4-124
4.12.2	Affected Environment	4-125
4.12.3	Environmental Consequences and Mitigation	4-128
4.13	Ecosystems	4-130
4.13.1	Background and Methodology	4-130

---

4.13.2	Affected Environment	4-133
4.13.3	Environmental Consequences and Mitigation	4-138
4.14	Water	4-140
4.14.1	Background and Methodology	4-140
4.14.2	Affected Environment	4-145
4.14.3	Environmental Consequences and Mitigation	4-157
4.14.4	404(b)(1) Analysis	4-170
4.15	Street Trees	4-173
4.15.1	Background and Methodology	4-173
4.15.2	Affected Environment	4-173
4.15.3	Environmental Consequences and Mitigation	4-175
4.16	Archaeological, Cultural, and Historic Resources	4-176
4.16.1	Background and Methodology	4-176
4.16.2	Affected Environment	4-182
4.16.3	Environmental Consequences and Mitigation	4-182
4.17	Maintenance and Storage Facility	4-193
4.17.1	No Build Alternative	4-193
4.17.2	The Project	4-193
4.18	Construction Phase Effects	4-195
4.18.1	Land Use and Economic Activity	4-196
4.18.2	Communities and Neighborhoods	4-197
4.18.3	Visual and Aesthetic Conditions	4-199
4.18.4	Air Quality	4-199
4.18.5	Noise and Vibration	4-200
4.18.6	Construction Energy Consumption	4-201
4.18.7	Contaminated Media and Solid Waste	4-202
4.18.8	Natural Resources	4-203
4.18.9	Invasive Species	4-204
4.18.10	Water Resources	4-204
4.18.11	Archaeological, Cultural, and Historic Resources	4-207
4.18.12	Relationship between Short-term Uses of the Environment and Long-term Productivity	4-208
4.19	Indirect and Cumulative Effects	4-209
4.19.1	Background and Methodology	4-209
4.19.2	Indirect Effects	4-210
4.19.3	Cumulative Effects	4-214
4.19.4	Effects of No Build Alternative on Growth	4-228
4.20	Irreversible and Irretrievable Commitments of Resources	4-229
4.21	Anticipated Permits, Approvals, and Agreements	4-229

---

<b>Chapter 05 Section 4(f) Evaluation</b>	<b>5-1</b>
---	------------

---

5.1	Changes to this Chapter since the Draft Environmental Impact Statement	5-1
5.2	Introduction	5-2
5.2.1	Section 4(f) "Use" Definitions	5-3
5.3	Description of the Project	5-3
5.4	Description of Section 4(f) Resources	5-4
5.5	Direct Use of Section 4(f) Resources	5-6
5.5.1	Park and Recreational Resources	5-12
5.5.2	Historic Sites	5-18
5.6	Evaluation of Constructive Use of Section 4(f) Resources	5-41
5.6.1	Parks and Recreational Resources	5-42
5.6.2	Historic Section 4(f) Resources	5-45
5.6.3	Summary of Evaluation of Constructive Use of Section 4(f) Resources	5-60
5.7	Temporary Occupancy of Section 4(f) Resources	5-60
5.8	Least Overall Harm	5-60
5.9	Determination of Section 4(f) Use	5-63

  

<b>Chapter 06 Cost and Financial Analysis</b>	<b>6-1</b>
---	------------

---

6.1	Changes to this Chapter since the Draft Environmental Impact Statement	6-1
6.2	Cost Estimate Methodology	6-2
6.2.1	Capital Cost Methodology	6-2
6.2.2	Operating and Maintenance Cost Methodology	6-2
6.3	Capital Plan	6-3
6.3.1	Capital Costs	6-3
6.3.2	Proposed Capital Funding Sources for the Project	6-3
6.3.3	Funding Sources for Ongoing Capital Expenditures	6-5
6.4	Operating and Maintenance Plan	6-6
6.4.1	Operating and Maintenance Costs	6-6
6.4.2	Operating and Maintenance Funding Sources	6-7
6.5	Cash Flow Analysis	6-8
6.5.1	Financing Assumptions for the Project	6-9
6.5.2	Ongoing Capital Expenditure Cash Flow	6-10
6.5.3	Operating and Maintenance Expenditure Cash Flow	6-10
6.6	Risks and Uncertainties	6-10
6.6.1	Project Cost Risks	6-10
6.6.2	Economic and Financial Risks	6-11

6.6.3 Capital Revenues	6-12
6.6.4 Operating Revenues	6-13
6.6.5 Operating Costs	6-14

---

## Chapter 07 Evaluation of the Project 7-1

---

7.1 Changes to this Chapter since the Draft Environmental Impact Statement	7-1
7.2 Effectiveness in Meeting Project Purpose and Need	7-2
7.2.1 Improve Corridor Mobility	7-2
7.2.2 Improve Corridor Travel Reliability	7-3
7.2.3 Improve Access to Planned Development to Support City Policy to Develop a Second Urban Center	7-4
7.2.4 Improve Transportation Equity	7-4
7.3 Transportation and Environmental Consequences	7-6
7.3.1 Transportation	7-6
7.3.2 Environmental Consequences	7-7
7.4 Cost-effectiveness	7-7
7.5 Financial Feasibility	7-8
7.5.1 Measure of Capital Financial Feasibility	7-8
7.5.2 Measure of City Financial Contribution for Operating and Maintenance	7-8
7.5.3 Comparison of Alternatives	7-8
7.6 New Starts Program	7-8
7.6.1 Background	7-9
7.6.2 Ratings for the Project	7-9
7.7 Important Trade-offs	7-10
7.8 Unresolved Issues	7-11

---

## Chapter 08 Comments and Coordination

---

8.1 Changes to this Chapter since the Draft Environmental Impact Statement	8-1
8.2 Public and Community Outreach	8-2
8.2.1 Public Outreach Techniques	8-2
8.2.2 Government and Other Agency Coordination	8-2
8.2.3 Section 106 and Consulting Party Coordination	8-4
8.2.4 HRS Chapter 343 Coordination	8-5
8.2.5 NEPA Coordination	8-6
8.3 Community Outreach during the Alternatives Analysis Phase	8-6
8.4 Community Outreach during the Project's Preliminary Engineering/EIS Phase	8-7
8.5 Public Hearings	8-8

---

8.6	Draft EIS Comments	8-9
8.6.1	Alternatives Considered	8-10
8.6.2	Planned Extensions	8-12
8.6.3	Ridership/Travel Forecasting	8-12
8.6.4	Parking	8-13
8.6.5	Traffic Analysis	8-14
8.6.6	Visual	8-14
8.6.7	Noise	8-16
8.6.8	Project Cost and Financing	8-16
8.6.9	Construction Phasing	8-17
8.6.10	Construction	8-17
8.6.11	Acquisitions and Relocations	8-18
8.6.12	Managed Lane Alternative	8-18
8.6.13	At-Grade Alternatives	8-22
8.7	Continuing Public Involvement through Construction	8-23
8.8	Accommodations for Minority, Low-Income, and Persons with Disabilities	8-23

## References

### List of Preparers

### List of EIS Recipients

### Index

### List of Appendices (on enclosed compact disk)

---

Appendix A	Comments Received on the Draft Environmental Impact Statement and Responses
Appendix B	Preliminary Alignment Plans and Profiles
Appendix C	Preliminary Right-of-Way Plans
Appendix D	Bus Transit Routes
Appendix E	Construction Approach
Appendix F	Record of Agency Correspondence and Coordination
Appendix G	Record of Public and Stakeholder Correspondence and Coordination
Appendix H	Section 106 of the National Historic Preservation Act Programmatic Agreement
Appendix I	Mitigation and Commitments
